

# Salavat Shirgaleev

Middletown, New York 10941 (open to relocate) | [sshirgaleev@gmail.com](mailto:sshirgaleev@gmail.com) | <https://www.linkedin.com/in/sshirgaleev/> | <http://www.sshirgaleev.com>

## SUMMARY

- Experience in designing and developing Web based applications using Java and technologies like Spring, JSP, Hibernate, Servlets.
- Good understating of core Java components such as : Concurrency, Persistency, multi-threading.
- Knowledge in Web Services.
- Knowledge on OOP concepts. Understanding of relational database concepts.
- Web technology knowledge (Javascript, JSON, ReactJS, AJAX, HTML/CSS, Websockets)

## SKILLS

- **Languages:** Java, JavaScript, SQL,PHP, Swift
- **Technologies:** Spring, MVC, junit, ReactJS, Cocoa Touch
- **Web Service protocols:** REST, SOAP
- **Version Control:** Git
- **Databases:** PostgreSQL, MySQL, Firebase
- **OS:** macOS
- **IDE:** IntelliJ Idea, Sublime, Xcode, VisualStudio Code
- **Application Servers:** Tomcat

## WORK EXPERIENCE

*Freelance Developer : December 2018 - March 2019*( [www.waiver.tech](http://www.waiver.tech))

Built web application for chain of Phone Fix Stores to store customers data, inventory tracking and inventory ordering using Spring Boot as a backend framework, JPA, Hibernate and MySQL DB for the persistence layer and ReactJS as a frontend framework.

- Involved in the full life cycle of software design process of other projects, including prototyping, proof of concepts, design, interface implementation, testing and maintenance.
- Install, configure and deploy software, provide quality assurance.
- Used Hibernate with JPA for attaining Object Relational Mapping.
- Designed and developed front-end using JavaScript, ReactJS , Redux, HTML, CSS.
- Implemented all validations and done testing.

*Freelance Developer : March 2018 - June 2019* ([www.get-invoiced.tech](http://www.get-invoiced.tech))

Built web application for small business company to manage invoices and create PDF invoices.

- Used iText library to generate PDF files
- Spring Boot as a backend framework.
- ReactJs as a frontend framework
- Hibernate, JPS and MySQL for the persistence layer.
- Used Spring Security for registration, authentication and authorization.
- Designed and developed front-end using JavaScript, ReactJS , Redux, HTML, CSS.
- Used Hibernate with JPA for attaining Object Relational Mapping.
- Deploying software (Heroku)

## EDUCATION

Bachelor's Degree in Software Engineering (2014-2017)

Kazan Federal University (Kazan, Russia)

Department of Information Technologies
